### AVAYA Solutions: Simple and Powerful Communications

Altura Communication Solutions is one of Avaya's largest authorized Diamond Business Partners. Avaya is a global leader in enterprise communications providing unified communications, contact centers, cloud solutions, and services to businesses and governments around the world. Avaya's solutions integrate via open industry standards with technologies in multi-vendor environments, so organizations can expand on communications functions and potential starting with their existing networks. Avaya applications and software help state and local governments simplify complex communications, improve efficiencies, foster better employee collaboration, and achieve higher levels of citizen satisfaction and public safety. By embedding communications into government operations processes, Avaya helps improve the way organizations work.
